

Dear Customer,

Due to high usage, extreme heat, and other situations beyond our control, we are currently running extremely low on water reserves. In order to maintain water reserves for fire protection, we are asking everyone to discontinue water usage for any purposes other than domestic usage. This means for the current time, no lawn watering, no car washes, no filling of swimming pools or other uses not considered domestic use. You certainly may continue to use water in your home as you have done before. We are not restricting usage for cooking, bathing, washing or other regular domestic usage. We are currently enlarging our treatment facility to avoid this situation in the future. If you have questions about this, please feel free to call me at 318 872 0004 any time. Please help us protect you by complying with these voluntary restrictions.
